BREAK OUT

Neuartiges Kampfspiel für 1 oder 2 Spieler

Hervorragend geeignet zum Austragen von Meisterschaften

Durch günstige Abmessungen
Aufstellmöglichkeit auch in Gaststätten

Mit BREAK OUT
schaffen Sie den Durchbruch - zu neuen Aufstellplätzen

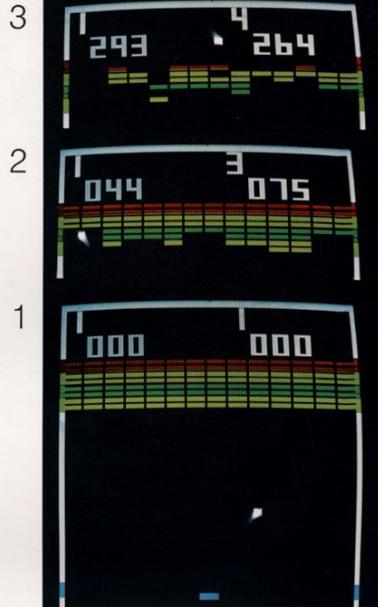

Wer schlägt die erste Bresche in die Mauer?

BREAK OUT — das neuartige Unterhaltungsspiel, das jeden fesselt, Spieler und Zuschauer. Wer einmal gespielt hat, kommt nicht mehr los.

BREAK OUT — bringt neue Impulse in das Unterhaltungsspiel.

BREAK OUT — jeder will spielen, jeder will den anderen oder sich selbst übertrumpfen.

BREAK OUT — wegen äußerst günstiger Abmessungen und sympathischer Akustik überall aufstellbar; besonders geeignet für Gaststätten.

BREAK OUT — ist im Spielablauf verblüffend einfach: eine vierfach gestaltete mehrfarbige Mauer muß durchbrochen werden. Herausgebrochene Steine bringen in der ersten Reihe einen Punkt, in der zweiten drei, der dritten fünf und der vierten Reihe sieben Punkte. Ist die Mauer durchbrochen und trifft der Spieler mit dem Puck durch die Lücke, werden die Steine auch von hinten abgeräumt (Abbildungen 1 bis 3).

Das Tempo der Kugel wird nach dem fünften und zwölften Abschlag gesteigert, dadurch enorme Spannung.

Einwurf: 1 DM — ein Spiel für zwei Spieler oder zwei Spiele für einen Spieler.

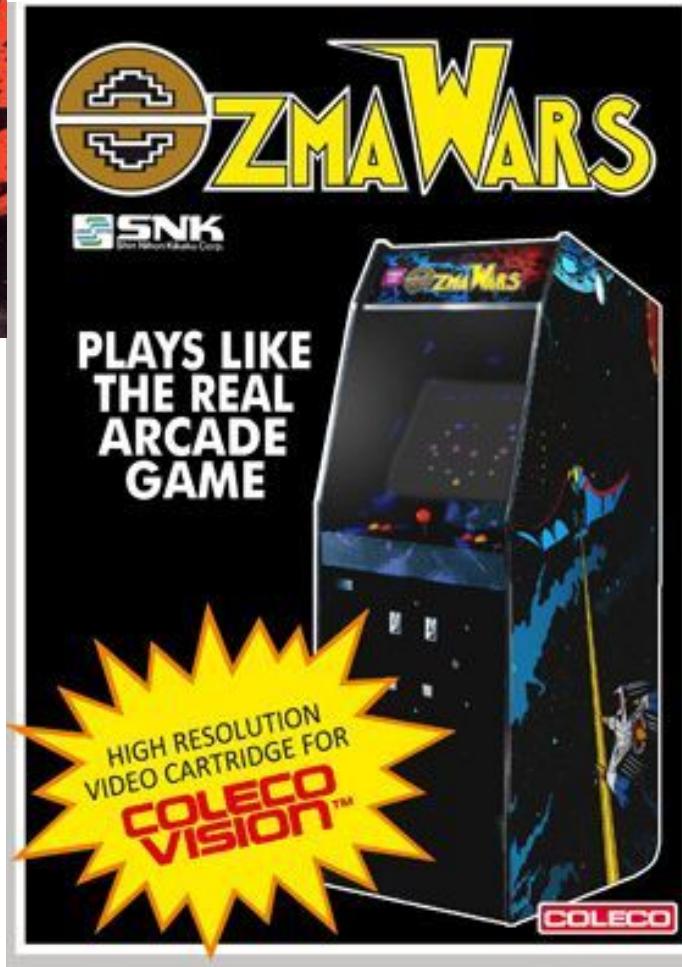

Einstellbar auf drei oder fünf Pucks pro Spieler.
Freispielenstellungen variabel in Stufen von 100 Punkten
Abmessungen: 64 x 166 x 70 cm.

BREAK OUT — der neue Kassenbringer für jeden Aufstellplatz!

MS. PAC-MAN

A more challenging version of the well-known Pac-Man maze game, Ms. Pac-Man is sure to be the most popular girl in the game world.

Pursued by the familiar Inky, Blinky, Pinky and the newest ghost, Sue, Ms. Pac-Man goes through 4 new and changing mazes that increase in difficulty and offer varying side exit locations. Each of the 4 mazes has an additional 2 side exits that give Ms. Pac-Man a total of 4 ways out of the maze.

Dots score 10 points each with Power Dots serving 50 points each. Points double for each ghost Ms. Pac-Man munches. 200 points for the first, 400 for the second and 800 and 1600 points consecutively for the third and fourth ghosts. When Ms. Pac-Man is caught herself, she dramatically swoons and falls.

As in Pac-Man, bonus fruit symbols indicate how many times a player has cleared the screen of dots. Ms. Pac-Man boasts additional bonus fruit symbols that also float freely through the maze and have higher point values when gobbled.

- 100 points
- 200 points
- 500 points
- 700 points
- 1,000 points

JOURNEY NOW INTO A STARTLING NEW DIMENSION,
WHERE ENERGY LIVES AND BREATHES. A WORLD INSIDE
THE COMPUTER WHERE
MAN HAS NEVER BEEN
BEFORE...

NEVER BEFORE NOW.

Walt Disney Productions has created this futuristic world inside the computer in their extraordinary feature film, TRON. Now it is possible to physically enter this new dimension by playing Bally/Midway's exciting new video game of the same name. The player becomes TRON, the mighty video warrior of the Electronic World, and must face all the challenges and dangers that await him in this world of electricity and light. The Electronic World is ruled by the tyrannical MCP and its strong armed warrior Sark, who pursues Tron and attempts to destroy him. Tron must face the challenge of racing deadly light cycles, battle Sark's tanks, attempt to enter the I.O. tower for energy discs and ultimately try to defeat the powerful MCP.

All this and more awaits the player who enters the world of TRON.

THE WORLD WE KNOW HAS SPAWNED ANOTHER WORLD.
A PARALLEL WORLD OF ENERGY AND LIGHT,
A WORLD WHERE VIDEO GAME BATTLES ARE REAL.

DIAGNOSTIC PACKAGE:

Tron contains the easy to use diagnostic package controlled by a switch inside the cashbox door.

The Self-Test mode provides:

- Self Diagnostics: With the Self-Test switch "on," the "TILT" switch is activated. The game will then go into the Self-Test mode. First a cross hatch pattern will appear, next a series of color bands will show on the monitor followed by full monitor screens of single colors. If ROM or RAM are malfunctioning, the screen will give a written message as to which parts are faulty.
- Sounds: In this test each of the game's separate sounds can be checked individually.
- Player Input: This test enables the operator to check each of the player-operated controls, including the coin switches.
- Bookkeeping: This test provides the operator with valuable information regarding game play, including detailed breakdowns of game times and scores.
- Machine Setup: This displays the way the game was set at the factory.
- Channel Test: During this test the game will check its sound system starting with Channel 1 through 6.

Complete detailed information is provided in the TRON technical manual.

BOMBERMAN™

Bomberman is a robot engaged in the production of bombs. Like his fellow robots, he had been put to work in an underground compound at the center of the Earth. Bomberman found it to be an unbearably dreadful existence.

One day he learned that any robot escaping from the center of the Earth and make it to the surface will become human. Bomberman jumped at the opportunity. Alerted to Bomberman's betrayal, large numbers of enemy characters were sent out in pursuit.

Bomberman can only rely on bombs of his own production for his defense. Will Bomberman ever make it to the surface? Once there, will he really become human?

The right side is a page from the Tiger Road manual. It features the title "TIGER ROAD" at the top with a "STORY" section below it. The story text describes the plot involving Ryu Ken Oh and Lee Wong. Below the story are three weapon icons: "CHAINS & SICKLE", "SPEAR", and "SNAKE WEAPON". Further down, it says to obtain a special weapon "TORA KI KOH" by clearing a stage twice. It also mentions that the green power life gage can only be used in specific stages. The bottom half of the page contains six screenshots of the game showing various enemies and combat scenes.

HIGH ACTION ADVENTURE

A dangerous group of evil criminals has taken people and are holding them as hostages. Musashi, a master of Ninjutsu and other martial arts, fights single-handedly in the opponent's territory on a mission to rescue the hostages and wipe out the band of villains.

GAME FEATURES

■The method of offensive combat automatically changes allowing the player to utilize the punch/kick for enemies nearby and the "Shuriken" (steel throwing blades), etc. for those faraway.

■5 missions, each consisting of 3-4 stages, take the player through a rich assortment of scenes.

■High-speed action, a variety of weapons, unique enemies and a wide array of Ninjutsu techniques combine to give you the maximum in playing enjoyment.

HOW-TO-PLAY

- Rescue all of the hostages being held in a stage by destroying the opposition and proceed on to the next one.
- Saving the hostages results in your earning POWER-UP weapons and points.
- Ninja "MAGIC" can be used only once in every stage.
- Defeating the boss in the mission's last stage enables the hero to advance to the BONUS stage.
- Successfully completing the BONUS stages allows the player to earn extra lives.

THE ANGLE SYSTEM
"Rotation is our game"

Available In Four Models:

- Angle 19
- Angle 25
- Angle Table
- Angle Countertop

Same Drawer Fits All Models

The "Angle System" was designed with fast and easy game rotation in mind.

A new kit can be installed in the angle drawer in 15 or 20 minutes. The drawer comes complete with a board holder, predrilled control panel and plexi, and a Jammer harness with slip on connectors for one and two joystick games.

More importantly, the "Angle System" has quick releases for game drawer/marquee and easy rotation and adjustment of the monitor. Thus, game drawer changes are made at the location in a matter of minutes.

We introduced the original drawer system concept to the industry in 1984 and our four years of experience shows in the design and quality of the new "Angle System" cabinet. Compare the "Angle System" with companies who are only now copying us with little attention to details. We believe you will go with the innovator, not the imitator.

FACE THE SOVIET CHALLENGE

TETRIS®

At last...a unique game theme to bring in new players

Player-selectable difficulty levels.
Easy level gives an instructional
tutorial.

Higher levels award bonus points
and add new features.

One or simultaneous two-player
feature with second player buy-in
option.

Developed in the Soviet Union, TETRIS
breaches the Iron Curtain.

Tetris is a totally new concept that is positively
addicting. Simply put, it's a puzzle in motion. Using
a joystick and buttons, fit pieces together to build
horizontal lines. The more lines, the more you score.
It's so easy, but somehow the challenge never ends.

Break the 'shoot-'em-up, punch-'em-out' blahs with Tetris.

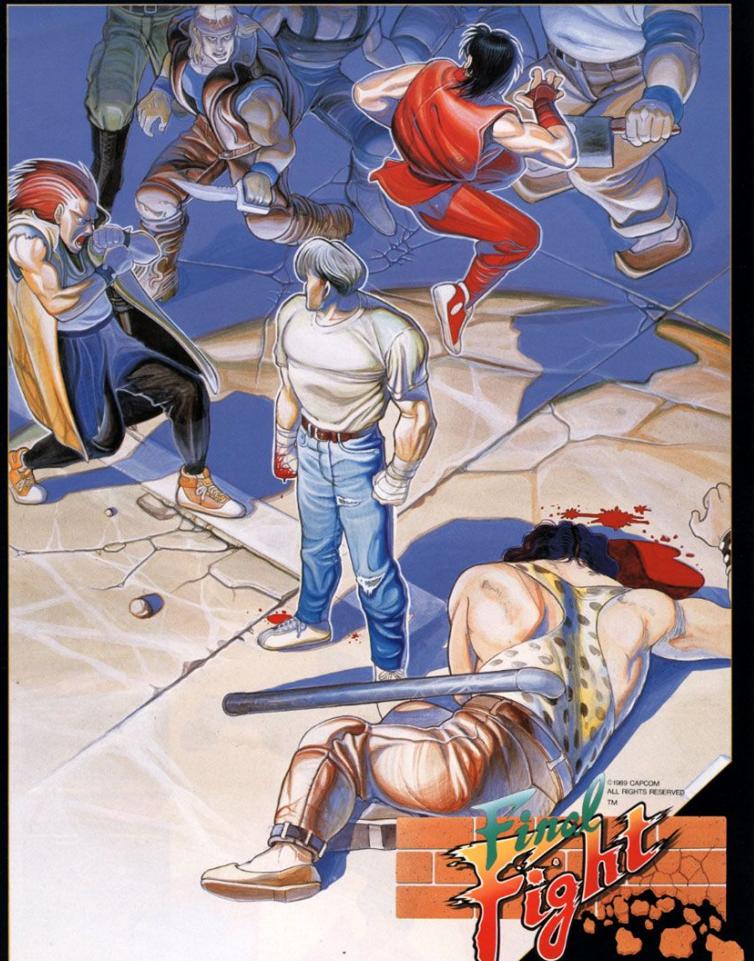

AVAILABLE AS A UNIVERSAL KIT

Includes PCB, controls, JAMMA harness, bezel and
artwork for header, control panel, and side decals.

PUT THE MAGIC BACK INTO YOUR BUSINESS.

Winners don't
use drugs

Mighty warriors, buxom, sword-swinging heroines, magic potions, and dragon-riding armored knights are all part of the amazing GOLDEN AXE adventure.

GOLDEN AXE is a video game kit that brings adventure and story-telling magic back to the video screen. And revenue to the operator.

To capture all the fanciful magic of GOLDEN AXE, Sega has created animation-style graphics and stunning special effects. The results are phenomenal. One or two players can choose between three story heroes. Players must battle a series of villains that include "the big fatties," armored knights, and vicious, dragon-riding warriors as they pursue the evil "Death Adder." Continuous play lets players battle their way through nine levels to the ultimate confrontation.

Like all SEGA kits, GOLDEN AXE includes a circuit board, wiring harness (JAMMA compatible), complete graphics package, and an in-cabinet operator control panel with volume control, service switch, and test switch.

Let GOLDEN AXE work some of its magic on your profits. Call your authorized SEGA distributor for more information.

THE SIMPSONS ARCADE GAME

THE ARCADE HIT FEATURING
THE FAMILY THAT PLAYS
TOGETHER, BUT WILL
THEY STAY TOGETHER?

Make room in your house for America's most animated family. The Simpson's sensational action arcade game is here for the home computer.

With Homer, Marge, Bart and Lisa racing to reunite the family after Maggie's nabbed during a jewel heist. So choose a Simpson's character and trek through all eight arcade levels and both hilarious bonus stages. Krustyland, Springfield Discount Cemetery, Moe's Tavern, the Nuclear Power Plant, it's all here. Theme music from the hit television series is also here, as well as crisp 3-D graphics with The Simpson's unique, vibrant animation. So follow those jewel thieves and bring the Simpson's together again.

Take on the oversized
bruiser at the end of
each level, including
the samurai, the wrestler,
the piggyback goons,
and a bionic Mr. Burns.

In Dreamland, The Simpson's stream of unconsciousness is filled with bizarre obstacles like the painful notes from Lisa's saxophone, menacing power plant employees and the pin-splitting bowling ball.

Pair-up with a friend for twice the fun. There are plenty of space mutants, zombies, thugs and robots to go around.

 **KONAMI®**

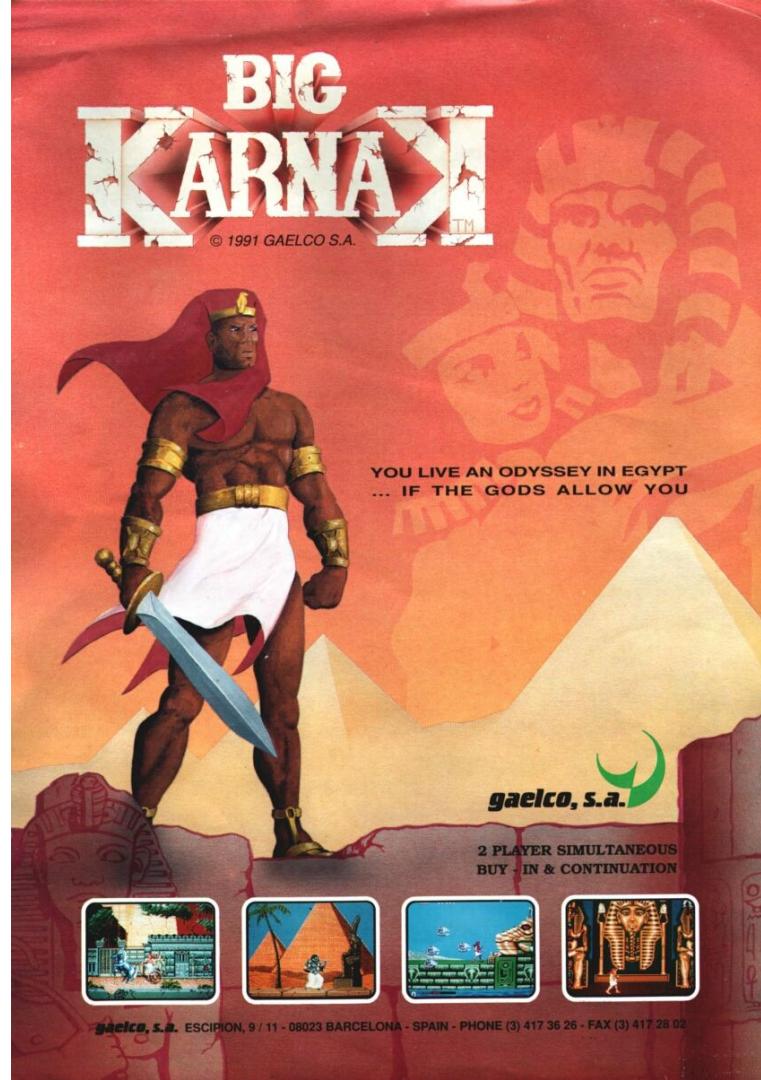

Maggie's held captive in the Nuclear Power Plant, where a sinister Smithers bombs you with explosives from his cloak.

Krustyland theme park features the runaway tea cup ride, crazy clowns and a giant Krustyhead that'll clobber you.

HERE BEGIN THE WORLD FIERCEST GUN BATTLES!

In the year 2000, R state succeeded in completing a fortified base on the sea, which was controlled by a high-function military computer.

Using the base, R started to invade neighboring countries. The computer on the base broke in the those countries' central computers and shut off the commands from them. In result, those countries were deprived of the capacity to counterattack and had to allow the invasion.

All the computers in the occupied countries were placed under strict surveillance, and all the resistances were suppressed.

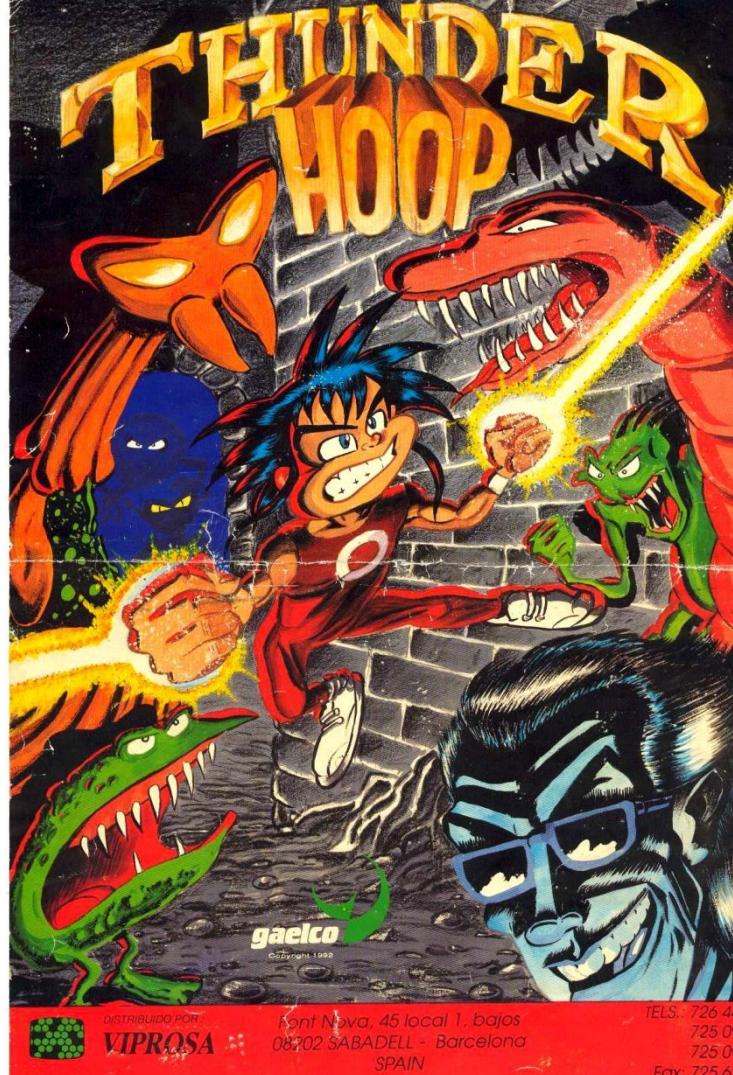

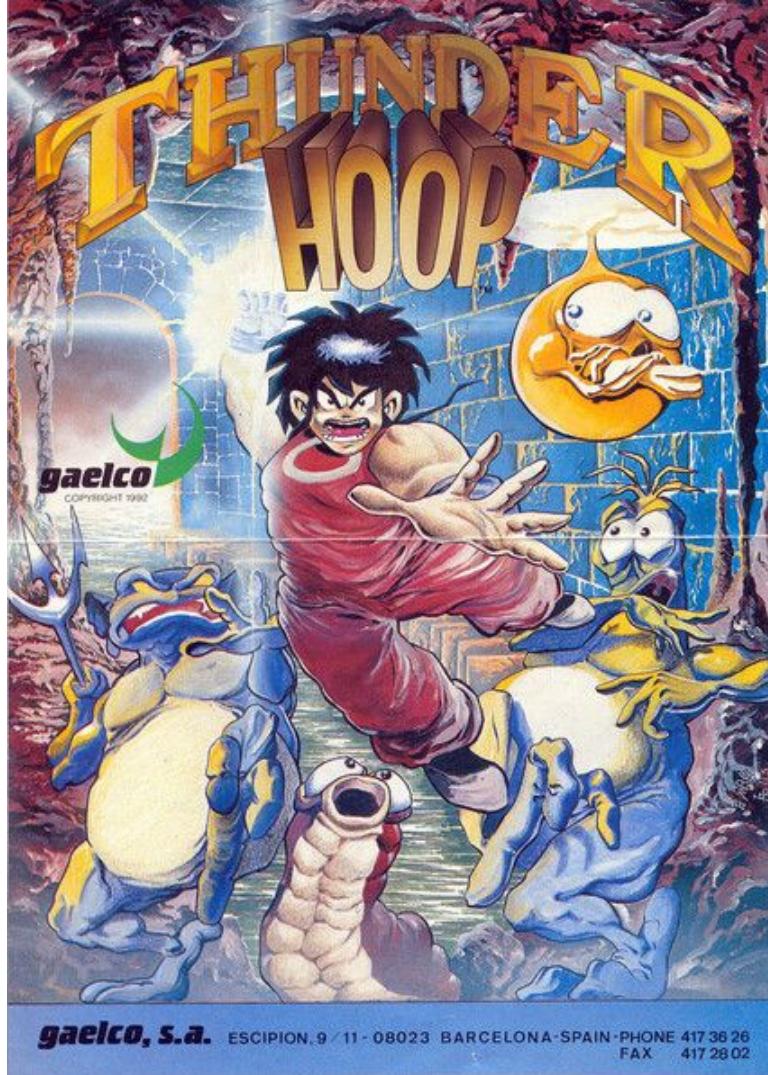

There the allied forces against R dispatched two commandos on the mission of destroying the sea base in the last-ditch attempt.

Here begins the final operation.
